Excellence in stoma care

# SecuPlast® Hydro is the perfect choice for extra security.

For patients who have problems with pouch adhesion, particularly around the edges of the flange, SecuPlast Hydro is the ideal solution. Unlike traditional sticky and uncomfortable tapes, SecuPlast Hydro security strips are thin, skin-friendly and easy to apply. Giving you the freedom to enjoy life to the full.

## And now there's NEW SecuPlast® Hydro Aloe Vera!

Patients with sensitive skin might like to try NEW SecuPlast Hydro Aloe Vera. Used for thousands of years for its soothing, softening and moisturising benefits, aloe vera may help to protect the delicate skin around your stoma. Just as secure, softer on skin.

Tests prove patients love new SecuPlast Hydro Aloe Vera:

## Two great products, same great benefits

- Extra security with any type or make of pouch
- One size fits all
- Easy to use – allows precise positioning and less wastage
- Use as many strips as required
- Skin-friendly – unlike microporous tapes
- Non-allergenic – great for people who can't use microporous tape

## The SecuPlast® Hydro range is so easy to use.

Increasing your security couldn't be simpler:

1. Remove release film

2. Position where required and smooth onto skin

3. Use as many pieces as required
