PART OF THE FAMILY OUR ACCREDITATIONS

PART OF THE FAMILY

Founded in 1701, Salts Healthcare has delivered innovative medical and healthcare products and services for over 300 years. It is a family-led business, with two brothers Peter and Robert Salt, the tenth generation of the Salt family, at the helm.

Salts were the first company in the UK to manufacture the modern stoma bag, helped create the Ileostomy Association and the first to employ people with a stoma to help teach and support new ostomists.

In association with De Montfort University, our Salts Academy has been educating stoma care nurses for over a decade. And recently we opened the UK's first skin research clinic, which will help increase knowledge of the properties of skin, and to allow the development of innovative medical adhesives in the future.

Salts Healthcare's vision is **Caring, Listening and Innovating to Improve Lives**: something we incorporate into everything we do.

BRITISH SKIN FOUNDATION

Salts Healthcare has supported the British Skin Foundation (BSF) since 2003, and continues to do so. The BSF raises money to fund research into finding cures for skin disease and skin cancer. 60% of British people currently suffer from or have suffered with a skin disease at some point during their lifetime. Some skin conditions are manageable, others are severe enough to kill. The BSF is the UK's only charity dedicated to skin research, and it has supported more than 300 research projects and awarded £15 million in funding.

SKIN HEALTH ALLIANCE

Protecting skin. It's in our nature.

Our research into skin-friendly hydrocolloids is one of the reasons we've achieved recognition from the Skin Health Alliance (SHA). The SHA is the 'leading international skin health authority, working closely with dermatologists, researchers and skin scientists' around the globe. The SHA awards its dermatological accreditation mark to products and services where scientific and clinical research achieves, or surpasses, its stringent skin safety criteria. This accreditation puts Salts products among some of the leading skin-friendly brands in the world, such as Olay, Bio-Oil®, Neutrogena®, Carex, and Pampers®

CONFIDENCE BE go™

FREE TO BE FLEXIBLE

- Our unique patented Flexifit® wafer bends and flexes with movement.

FREE TO BE COMFORTABLE

- Premium breathable water-repellent fabric.
- Wafer infused with extracts of Aloe Vera.
- The wafer allows the skin to maintain its natural pH¹

FREE TO BE DISCREET

- Sleek, low-profile design – not like a medical device.
- Low rustle fabric cover.²
- The filter is designed to help reduce ballooning and neutralise odour.³

FREE TO BE IN CONTROL

- Machine-washable and multi-use covers.
- Pull-away cover replaces a traditional viewing window to make it easier to see the stoma.
- Improved outlet tucks away and is securely fastened with premium VELCRO® hook and loop fastener material.
- Ring pull tab designed to help with emptying and cleaning.
- Blue, guided touchpoints may make the bag easier to see and use.⁴

FREE TO BE YOU

- A choice of six cover colours to match mood, outfit or activity.

CONFIDENCE[®] NATURAL ADVANCE

- Our unique patented Flexifit[®] wafer bends and flexes with movement. It is designed to help create an adaptable fit around the stoma to help reduce leaks and sore skin. The wafer is easy to apply and remove.
- Wafer infused with extracts of Aloe Vera.
- Quicker tack and erosion resistance when compared to other Salts Healthcare adhesives⁵
- 2-colour print film which may help make it easier to see and cut.
- Comfortable and durable beige cover with transparent overlap to help with viewing and positioning.
- Discreet drainable outlet film obscures bag contents (*Drainable bags only*).
- We only use skin-friendly hydrocolloids, research into which is recognised by the British Skin Foundation, and dermatologically accredited by the Skin Health Alliance.

HARMONY® DUO WITH FLEXIFIT® AND ALOE

- Our unique patented Flexifit® wafer bends and flexes with movement. It is designed to help create an adaptable fit around the stoma to help reduce leaks and sore skin.
- Wafer infused with extracts of Aloe Vera.
- Easy-to-apply stick-together system with locator which matches up with a notch on the bag for accurate positioning.
- Comfortable and durable beige cover with transparent overlap to help with viewing and positioning.
- We only use skin-friendly hydrocolloids, research into which is recognised by the British Skin Foundation, and dermatologically accredited by the Skin Health Alliance.

SAS MONTHLY ALLOWANCE: **30 bags per month** (1 box)

CONFIDENCE® WOUND AND FISTULA POUCH WITH FLEXIFIT® (non-sterile)

- Our small fistula bag is available with a horizontal or vertical wafer, depending on the wound or fistula position.
- Our medium fistula bag has a long, narrow shaped baseplate to fit perfectly between other baseplates or dressings, ideal for open (non-sterile) mid-line incisional wounds.
- All products benefit from our unique Flexifit® wafer, which flexes to the body.
- Available in three different sizes, this 1-piece drainable product is suitable for a variety of fistulas and wounds.
- The unique Flexifit® wafer is only 1mm thick. Its six slits create flexible compression zones for a closer fit.
- Our bags are suitable for a reasonable amount of exudate and come with odour resistant films.

- The non-return valve and wide-bore spout outlet allow even thick exudate to drain.
- Continuous drainage can be attached internally or externally to the outlet spout.
- We only use skin-friendly hydrocolloids, research into which is recognised by the British Skin Foundation, and dermatologically accredited by the Skin Health Alliance.

CONFIDENCE® WOUND AND FISTULA POUCH with FLEXIFIT® (non-sterile)

SIZE	VOLUME	ORDER CODES	PACK SIZE
SMALL – Horizontal wounds up to 60mm wide and 40mm high	60ml*	CWM01	10
SMALL – Vertical wounds up to 40mm wide and 60mm high	60ml*	CWM02	10
MEDIUM – Vertical wounds up to 53mm wide and 150mm high	60ml*	CWM03	10

*Measured to non-return valve.

SAS MONTHLY ALLOWANCE: **10 pouches per month** (1 box)

SALTS MOULDABLE SEALS WITH ALOE

- Mouldable seals do not require warming, and do not lose stickiness whilst being stretched and moulded to size.
- Help to prevent leaks that cause sore skin by moulding to the exact shape and size of your stoma.
- Following the contours of the abdomen, they help to create a customised, comfortable, leak-resistant seal.
- Help to extend wear-time.
- Stay firmly in place during movement.
- Can be broken, layered and rolled to fill skin dips and crevices.
- Remove easily from the body.
- Infused with extracts of Aloe Vera.
- We only use skin-friendly hydrocolloids, research into which is recognised by the British Skin Foundation, and dermatologically accredited by the Skin Health Alliance.

SALTS FLANGE EXTENDER WITH ALOE

- Skin-friendly hydrocolloid strips can be applied around the edges of the wafer, to help prevent the edges from lifting.
- 120-degree shape.
- Use 1–4 pieces as required.
- Infused with extracts of Aloe Vera.
- Easy to apply and comfortable on the skin, Salts Flange Extenders with Aloe help to increase the feeling of security around the edge of the wafer.
- We only use skin-friendly hydrocolloids, research into which is recognised by the British Skin Foundation, and dermatologically accredited by the Skin Health Alliance.
